## Contents

- Ahmed, Salah Guma:** Environmental consequences of pollution in coastal zones
- Bird, Eric C. F.:** Coastal management with a rising sea level
- Chrzastowski, Michael J.:** Geologic history and human development history of the Illinois coast of Lake Michigan, USA
- Cieślak, Andrzej:** Some remarks on large scale coastal morphodynamics
- Cu, Nguyen Van & Shuisky, Yuri D.:** Problems of recreational utilisation of Doson Peninsula shores, South China Sea
- Dikariova, Tatiana V.:** Changes in deltaic ecosystems of the Volga River in connection with the sea level rise
- Fabbri, Paolo:** What happens to an overpopulated coast: the case of the Italian Middle Adriatic
- Furmańczyk, Kazimierz:** Remote sensing model of the circulations systems at the coastal zone
- Gaigalas, Algirdas:** Pebbles orienting in the beach sand deposits of the South-Eastern Baltic
- Gaigalas, Algirdas & Gulbinskas, Saulius:** The Lithuanian Baltic Coast and recent sedimentation in the Baltic Sea
- Kaplin, P. A. & Porotov, A. V.:** Development of coastline in the eastern part of the Finland Gulf: implication to possible coastal evolution under predicted sea-level rise
- Kaszubowski, Leszek J.:** Middle and Late Holocene evolution of the Central Polish Coast
- Kaszubowski, Leszek J.:** Genetic types of the sea shores and contemporary evolutionary trends on the Western Polish Coast
- Katupotha, Jinadasa:** Changes in the Lower Kelani drainage basin in Sri Lanka during the Late Pleistocene epoch
- Kożuchowski, Krzysztof, Stolarczuk, Anna & Wiśniewski, Bernard:** Many years changes of sea level in Świnoujście (1813-1990)
- Marqués, M. Angels:** Beach nourishment inland associated effects
- Miossec, Alain:** Coastal protection in France: the long way of an administrative game
- Mohamed, Mamdouh A.:** Mineralogical studies as a sign reflecting sources and environments of Gdańsk Bay sediments, Baltic Sea, Poland
- Mohamed, Mamdouh A & Jankowska, Halina:** Carbonate, organic, and suspended matter

contents as a tool explaining the depositional environment of Vistula Pro-Delta sediments, Gdańsk Bay, Baltic Sea, Poland

**Moreira, M. Eugénia S. A. & Dias, Maria Helena:** Environmental dynamics of the Sado estuary mouth (Portugal)

**Musielak, Stanisław & Rudowski, Stanisław:** New aspect of barred coast (non tidal sea) development

**Paskoff, Roland P.:** Historical evolution of the Medjerda River Delta (Tunisia)

**Polonska, Diana:** Coastal application of the morphotectonic analysis

**Ratas, Urve & Puurmann, Elle:** Changes in soil-vegetation complexes of Estonian seashore, caused by activation of coastal processes

**Schwartz, Maurice L & Anderson II,, Brooks D.:** Barrier islands: past, present and future - examples from Eastern Mexico

**Selivanov, Andrei O.:** Coast of the East Baltic states under the possible greenhouse-induced sea-level rise

**Shuisky, Yurii D.:** Ecologic conditions impact to the sediment balance of big sandy spits along the Black Sea shore

**Terwindt, Joost H. J. & Kroon, Aart:** Theoretical concepts of parametrization of coastal behaviour

**Vykhovanets, Galina V.:** Aeolian processes along the sandy coastal accumulative forms on the Black Sea

**Winn, Kyaw, Erlenkeuser, H., Hirsch, W. & Temmler, H.:** The Eem seas in Schleswig-Holstein, North Germany preliminary <sup>18</sup>O and <sup>13</sup>C data benthic foraminifera

**Zawadzka-Kahlau, Elżbieta:** Lithodynamic processes along Polish Baltic coast during the last 100 years
